

Introduction of new Keepsake Magic!

We shared some information in the December "For Keeps" about the new magic – and here is a little more!

- There are 4 new skus that deliver constant magic that arrive at Premiere- each ornament has a default light show.
- These new Keepsake ornaments will create a coordinated light and sound show for you to enjoy.

Jazzy all the Way

Ho!Ho!Ho! Tasty Snow

Checking it Twice
1st in Series!

Decking the Door

Why Magic Cord??? – LED trees don't allow us to have UL ornaments anymore for two reasons.

- 1- The LED trees do not provide enough current to power our magic ornaments.
- 2- You can't pull out the LED bulbs to plug into the cord

Our solution to deliver constant magic is the new technology of the magic cord that launched with Wonder and Light this past holiday season. The great thing is if you purchased Wonder and Light this is the same cord and it will bring to life these new ornaments!

If you are not familiar with Wonder and Light we have sent you a sample that you can use during your next club meeting so you can see how simple it is. Enclosed with this letter is a set of 3 snowflakes that included a cord, as well as an individual ornament. At your next local club meeting, just follow the directions in the box on how to connect the ornaments to the cord and then watch the show!
